DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-35, 68-103, 136 drawn to Group I, classified in class 370, subclass 463.
 - II. Claims 36-54, 104-122, drawn to Group III, classified in class 370, subclass 428.
 - III. Claims 55-67, 123-135, drawn to Group IV, classified in class 370, subclass 362.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed, because a combination as claimed does not set forth the details of the subcombination as separately claimed and the subcombination has separate utility. The subcombination has separate utility such as the followings: Group I does not specifically claim the detailed features of packet buffering, VLAN, etc. in Group II; and detailed features of CPU, DMA, TDM, MII, etc. in Group III.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, III, restriction for examination purposes as indicated is proper.

Art Unit: 2664

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kwang B. Yao whose telephone number is 703-308-7583. The examiner can normally be reached on M-F.
